

```
1 # API – Portfolio Backend (Laravel)
2
3 > ⚠️ **التوثيق ده مبني على ملفات** `resources` و `routes/api.php` ملاحظة مهمة:
الفعلي، فبعض التفاصيل زي **نص رسائل النجاح بالضبط**، و**قواعد ال Controllers المتوفرة. مفيش كود ال
مبنية على المنطق المنطقي للكود الموجود. لو حابب توثيق 100% دقيق، (مطلوب/اختياري) Validation لـ
كمان وأعدّل عليه FormRequests و ال Controllers ابعت ملفات ال
4
5 ---
6
7 ## نظرة عامة 1. (Overview)
8
9 - **Base URL:** `{APP_URL}/api`
10 - **Auth:** ال Endpoints المحمية (Admin) بتستخدم Laravel Sanctum، لازم تبعت Header:
11 ```
12     Authorization: Bearer {token}
13 ```
14 - **الـ Response شكل الـ helper:** (`apiResponse` من)
15 ```json
16 {
17     "status": 200,
18     "message": "وصف الرسالة",
19     "data": { }
20 }
21 ```
22 - في الـ `status` بيكون **نفس** قيمة الـ HTTP Status Code الـ
23 - (غالبًا Delete زي عمليات الـ) `null` لو القيمة الـ Response بيتشال بالكامل من الـ `data` مفتاح
24
25 - **روابط الملفات** (cover, pdf, avatar, icon, favicon, cv, gallery):
26     `mediaUrl()` كامل عن طريق `Absolute URL` بترجع كـ
27     - بترجع كما هي (`http...`) لو القيمة المخزنة بالفعل رابط
28     - (`storage` رابط من) `secure_asset(path)` غير كذا → بتتحول لـ
29
30 - **Pagination:** الـ Collections (`AchievementCollection`, `ResearchCollection`, ...) مش بتسـ
31     `count` بترجع كل العناصر دفعة واحدة مع - `Pagination` تخدم
32
33 - **multipart/form-data** لازم يتبع بـ (cover/pdf/avatar/...) فيه حقل ملف Endpoint أي (Multipart):
34     رفع الملفات الـ
35     > ⚡️ **Laravel: تنويه**
36     الـ `PUT` تلقائيًا مع `multipart/form-data` لارافيل مش بيقراً بيانات
37     الـ `POST` فيه رفع ملف، الأفضل تبعت الطلب بـ `method=PUT` (Method Spoofing)
38     الـ `React frontend` لو حابب تتجنب مشاكل في `FormData` مع `axios/Fetch` مكتبات زي
```

#	Method	Endpoint	Auth	الوصف
1	POST	`/auth/login`	🔓 Public	تسجيل دخول الأدمن
2	POST	`/auth/forgot-password`	🔓 Public	لاستعادة الباسورد OTP طلب
3	POST	`/auth/verify-otp`	🔓 Public	OTP تأكيد
4	POST	`/auth/reset-password`	🔓 Public	تعيين باسورد جديد
5	DELETE	`/admin/auth/logout`	🔒 Admin	تسجيل خروج
6	GET	`/user/data`	🔓 Public	بيانات صاحب البورتفوليو
7	GET	`/admin/user`	🔒 Admin	بيانات اليوزر (للوحة التحكم)
8	PUT	`/admin/user/update`	🔒 Admin	تعديل بيانات اليوزر
9	GET	`/about`	🔓 Public	About بيانات
10	GET / POST / PUT	`/admin/about`, `/admin/about/store`, `/admin/about/update`	🔒 Admin	إدارة About
11	GET	`/setting`	🔓 Public	إعدادات الموقع
12	GET / POST / PUT	`/admin/setting`, `/admin/setting/store`, `/admin/setting/update`	🔒 Admin	إدارة الإعدادات
13	GET	`/achievement`, `/achievement/show/{id}`	🔓 Public	الإنجازات
14	GET/POST/PUT/DELETE	`/admin/achievement/*`	🔒 Admin	كامل للإنجازات CRUD
15	GET	`/research`, `/research/show/{id}`	🔓 Public	الأبحاث
16	GET/POST/PUT/DELETE	`/admin/research/*`	🔒 Admin	كامل للأبحاث CRUD
17	GET	`/course`, `/course/show/{id}`	🔓 Public	الكورسات
18	GET/POST/PUT/DELETE	`/admin/course/*`	🔒 Admin	كامل للكورسات CRUD
19	GET	`/lecture`, `/lecture/show/{id}`	🔓 Public	المحاضرات
20	GET/POST/PUT/DELETE	`/admin/lecture/*`	🔒 Admin	كامل للمحاضرات CRUD
21	GET	`/experience`	🔓 Public	الخبرات
22	GET/POST/PUT/DELETE	`/admin/experience/*`	🔒 Admin	كامل للخبرات (show بدون) CRUD
23	GET	`/position`	🔓 Public	المناصب
24	GET/POST/PUT/DELETE	`/admin/position/*`	🔒 Admin	كامل للمناصب (show بدون) CRUD
25	GET	`/blog`, `/blog/show/{id}`	🔓 Public	المقالات
26	GET/POST/PUT/DELETE	`/admin/blog/*`	🔒 Admin	كامل للمقالات (show بدون) CRUD
27	GET	`/education`	🔓 Public	المؤهلات الدراسية
28	GET/POST/PUT/DELETE	`/admin/education/*`	🔒 Admin	كامل للمؤهلات (show بدون) CRUD
29	POST	`/contact-us/store`	🔓 Public	إرسال رسالة تواصل
30	GET/PATCH/DELETE	`/admin/contact-us/*`	🔒 Admin	عرض/تعليم كمقروء/حذف الرسائل

3. الأخطاء الموحدة (Error Responses)

Endpoints: بتنطبق على كل الـ

****❌ 401 – Unauthenticated**** (فقط Admin Routes، تكون غايب/غلط)

```

{
  "status": 401,

```

```

82     "message": "Unauthenticated."
83 }
84 ```
85
86 **❌ 404 – Not Found** (المرسل مش موجود `{id}` لما الـ)
87 ```json
88 {
89     "status": 404,
90     "message": "Resource not found"
91 }
92 ```
93
94 **❌ 422 – Validation Error**
95 ```json
96 {
97     "status": 422,
98     "message": "The given data was invalid.",
99     "data": {
100         "errors": {
101             "title": ["The title field is required."],
102             "cover": ["The cover must be an image."]
103         }
104     }
105 }
106 ```
107
108 **❌ 500 – Server Error**
109 ```json
110 {
111     "status": 500,
112     "message": "Something went wrong"
113 }
114 ```
115
116 ---
117
118 ## 4. Authentication
119
120 ### 4.1 POST `/auth/login` 📡
121 **Body:**
122 | Field | Type | Required |
123 |---|---|---|
124 | email | string | ✅ |
125 | password | string | ✅ |
126

```

```

127 **✅ 200 Response (تقديرية):**
128 ```json
129 {
130     "status": 200,
131     "message": "Login successful",
132     "data": {
133         "user": {
134             "id": 1,
135             "name": "Admin",
136             "email": "admin@example.com"
137         },
138         "token": "1|xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx"
139     }
140 }
141 ```
142 
143 ### 4.2 POST `/auth/forgot-password` 🔒
144 **Body:** `email`
145 
146 **✅ 200 Response:**
147 ```json
148 {
149     "status": 200,
150     "message": "OTP sent to your email"
151 }
152 ```
153 
154 ### 4.3 POST `/auth/verify-otp` 🔒
155 **Body:** `email`, `otp`
156 
157 **✅ 200 Response:**
158 ```json
159 {
160     "status": 200,
161     "message": "OTP verified successfully",
162     "data": {
163         "reset_token": "xxxxxxxxxxx"
164     }
165 }
166 ```
167 
168 ### 4.4 POST `/auth/reset-password` 🔒
169 **Body:** `email` (أو `reset_token`), `password`, `password_confirmation`
170 
171 **✅ 200 Response:**

```

```
172  ```json
173  {
174    "status": 200,
175    "message": "Password reset successfully"
176  }
177  ```
178
179  ### 4.5 DELETE `/admin/auth/logout` 🔒
180  **✅ 200 Response:**
181  ```json
182  {
183    "status": 200,
184    "message": "Logged out successfully"
185  }
186  ```
187
188  ---
189
190  ## 5. User (بيانات صاحب البورتفوليو)
191
192  > (سجل واحد بس، صاحب الموقع) Singleton ده Resource يعني الـ `UserCollection` ملاحظه: مفيش
193
194  ### 5.1 GET `/user/data` 🔒
195  **✅ 200 Response:**
196  ```json
197  {
198    "status": 200,
199    "message": "User data retrieved successfully",
200    "data": {
201      "id": 1,
202      "name": "Dr. John Doe",
203      "title": "Associate Professor of Communications Engineering",
204      "avatar": "https://your-domain.com/storage/user/avatar.jpg",
205      "department": "Electronics and Communications Engineering",
206      "university": "Cairo University",
207      "email": "john.doe@cu.edu.eg",
208      "phone": "+20 100 000 0000",
209      "office": "Building A, Room 204",
210      "office_hours": "Sun & Tue, 10:00 AM - 12:00 PM",
211      "address": "Giza, Egypt",
212      "cv": "https://your-domain.com/storage/user/cv.pdf",
213      "social_links": {
214        "linkedin": "https://linkedin.com/in/johndoe",
215        "researchgate": "https://researchgate.net/profile/johndoe"
216      },

```

```
217     "contact_email": "contact@johndoe.com"
218   }
219 }
220 ```
221
222 ### 5.2 GET `/admin/user` 🔒
223 Resource بدون اختلاف، لأنه مفيش حقول حساسة إضافية ظاهرة في الـ (اللي فوق بالضبط Response نفس شكل الـ
e).
224
225 ### 5.3 PUT `/admin/user/update` 🔒
226 **Body (كل الحقول اختيارية إلا لو الكنترولر بي فرض غير كذا):**
227 | Field | Type |
228 |---|---|
229 | name, title, department, university, email, phone, office, office_hours, address, contact_email | string |
230 | avatar, cv | file |
231 | social_links | object/JSON |
232
233 **✅ 200 Response:**
234 ```json
235 {
236   "status": 200,
237   "message": "User updated successfully",
238   "data": { "...": "Resource 5.1 نفس شكل الـ" }
239 }
240 ```
241
242 ---
243
244 ## 6. About
245
246 > Singleton: الـ Routes بدون `{id}` (`/admin/about/update`) → الكنترولر غالباً بيحجب أول/الوحيد سجل (About::first()).
247
248 ### 6.1 GET `/about` 🔒
249 **✅ 200 Response:**
250 ```json
251 {
252   "status": 200,
253   "message": "About retrieved successfully",
254   "data": {
255     "about": [
256       {
257         "id": 1,
258         "bio": "I am a Communications Engineering researcher passionate about wireless systems.",
```

```
259         "vision": "To contribute to next-generation wireless communication technologies.",
260         "skills": ["MATLAB", "Python", "Laravel", "React"],
261         "interests": ["5G", "OFDM", "Underwater Communication", "UAV"]
262     }
263 ],
264     "count": 1
265 }
266 }
267 ```
```

268

269 **### 6.2 GET `/admin/about`** 🔒

270 نفس شكل 6.1.

271

272 **### 6.3 POST `/admin/about/store`** 🔒

273 ****Body:**** `bio`, `vision`, `skills[]`, `interests[]`

274

275 ****✅ 201 Response:****

276 ```json

```
277 {
278     "status": 201,
279     "message": "About created successfully",
280     "data": { "id": 1, "bio": "...", "vision": "...", "skills": [], "interests": [] }
281 }
282 ```
```

283

284 **### 6.4 PUT `/admin/about/update`** 🔒

285 ****Body:**** (كل الحقول اختيارية) store نفس حقول الـ

286

287 ****✅ 200 Response:****

288 ```json

```
289 {
290     "status": 200,
291     "message": "About updated successfully",
292     "data": { "id": 1, "bio": "...", "vision": "...", "skills": [], "interests": [] }
293 }
294 ```
```

295

296 ---

297

298 **## 7. Setting**

299

300 > Singleton زي About - `/admin/setting/update` بدون `{id}`. لا يوجد Endpoint للحذف.

301

302 **### 7.1 GET `/setting`** 🔒

303 ****✅ 200 Response:****

```
304 ```json
305 {
306     "status": 200,
307     "message": "Settings retrieved successfully",
308     "data": {
309         "settings": [
310             {
311                 "id": 1,
312                 "doctor_name": "Dr. John Doe",
313                 "icon": "https://your-domain.com/storage/settings/icon.png",
314                 "favicon": "https://your-domain.com/storage/settings/favicon.ico"
315             }
316         ],
317         "count": 1
318     }
319 }
320 ```
321
322 ### 7.2 GET `/admin/setting` 🔒
323 7.1 نفس شكل .
324
325 ### 7.3 POST `/admin/setting/store` 🔒
326 **Body:** `doctor_name` (string), `icon` (file), `favicon` (file)
327
328 **✅ 201 Response:**
329 ```json
330 {
331     "status": 201,
332     "message": "Setting created successfully",
333     "data": { "id": 1, "doctor_name": "Dr. John Doe", "icon": "https://.../icon.png", "favicon": "http
334 s://.../favicon.ico" }
335 }
336 ```
337
338 ### 7.4 PUT `/admin/setting/update` 🔒
339 7.3 نفس حقول (اختيارية) .
340
341 **✅ 200 Response:**
342 ```json
343 {
344     "status": 200,
345     "message": "Setting updated successfully",
346     "data": { "id": 1, "doctor_name": "Dr. John Doe", "icon": "https://.../icon.png", "favicon": "http
347 s://.../favicon.ico" }
348 }
```

```
347  ...
348
349  ---
350
351  ## 8. Achievement
352
353  ### 8.1 GET `/achievement` 🔓 و GET `/admin/achievement` 🔒
354  **✅ 200 Response:**
355  ```json
356  {
357    "status": 200,
358    "message": "Achievements retrieved successfully",
359    "data": {
360      "achievements": [
361        {
362          "id": 1,
363          "title": "1st Place – National Robotics Competition",
364          "description": "Won first place in the national robotics championship.",
365          "full_description": "Led a team of 4 students to design and build an autonomous rover...",
366          "cover": "https://your-domain.com/storage/achievements/cover1.jpg",
367          "date": "2025-11-20",
368          "category": "Competition",
369          "live_link": "https://example.com/event-recap",
370          "gallery": [
371            "https://your-domain.com/storage/achievements/gallery1.jpg",
372            "https://your-domain.com/storage/achievements/gallery2.jpg"
373          ]
374        }
375      ],
376      "count": 1
377    }
378  }
379  ...
380
381  ### 8.2 GET `/achievement/show/{id}` 🔓 و GET `/admin/achievement/show/{id}` 🔒
382  **✅ 200 Response:** نفس شكل عنصر واحد من 8.1 لكن بدون التغليف:
383  ```json
384  {
385    "status": 200,
386    "message": "Achievement retrieved successfully",
387    "data": {
388      "id": 1,
389      "title": "1st Place – National Robotics Competition",
390      "description": "...",
391      "full_description": "...",
```

```
392     "cover": "https://.../cover1.jpg",
393     "date": "2025-11-20",
394     "category": "Competition",
395     "live_link": "https://example.com/event-recap",
396     "gallery": ["https://.../gallery1.jpg"]
397 }
398 }
399 ```
400 **❌ 404** غير موجود id لو الـ .
401
402 ### 8.3 POST `/admin/achievement/store` 🔒
403 **Body (multipart/form-data):**
404 | Field | Type | Required |
405 |---|---|---|
406 | title | string | ✅ |
407 | description | string | ✅ |
408 | full_description | string | optional |
409 | cover | file (image) | optional |
410 | date | date | optional |
411 | category | string | optional |
412 | live_link | string (URL) | optional |
413 | gallery[] | file[] (images) | optional |
414
415 **✅ 201 Response:** `{"message": "Achievement created successfully"}`.
416
417 ### 8.4 PUT `/admin/achievement/update/{id}` 🔒
418 نفس حقول 8.3 (كلها اختيارية).
419
420 **✅ 200 Response:** `{"message": "Achievement updated successfully"}`.
421 **❌ 404** غير موجود id لو الـ .
422
423 ### 8.5 DELETE `/admin/achievement/delete/{id}` 🔒
424 **✅ 200 Response:**
425 ```json
426 {
427     "status": 200,
428     "message": "Achievement deleted successfully"
429 }
430 ```
431 **❌ 404** غير موجود id لو الـ .
432
433 ---
434
435 ## 9. Research
436
```

```
437 ### 9.1 GET `/research` 🔒 و GET `/admin/research` 🔒
438 **✅ 200 Response:**
439 ```json
440 {
441   "status": 200,
442   "message": "Researches retrieved successfully",
443   "data": {
444     "researches": [
445       {
446         "id": 1,
447         "title": "Performance Analysis of OFDM Systems in Underwater Acoustic Communication",
448         "year": 2025,
449         "abstract": "This paper investigates the performance of OFDM-based modulation...",
450         "authors": ["John Doe", "Jane Smith"],
451         "keywords": ["OFDM", "Underwater Communication", "5G"],
452         "journal": "IEEE Transactions on Communications",
453         "conference": null,
454         "doi": "10.1109/TCOMM.2025.123456",
455         "link": "https://ieeexplore.ieee.org/document/123456",
456         "pdf": "https://your-domain.com/storage/research/paper1.pdf",
457         "cover": "https://your-domain.com/storage/research/cover1.jpg"
458       }
459     ],
460     "count": 1
461   }
462 }
463 ```
464
465 ### 9.2 GET `/research/show/{id}` 🔒 و GET `/admin/research/show/{id}` 🔒
466 لو غير موجود **❌ 404** ("message": "Research retrieved successfully"). نفس عنصر واحد بدون تغليف.
467
468 ### 9.3 POST `/admin/research/store` 🔒
469 **Body (multipart/form-data):**
470 | Field | Type | Required |
471 |---|---|---|
472 | title | string | ✅ |
473 | year | integer | optional |
474 | abstract | string | optional |
475 | authors[] | string[] | optional |
476 | keywords[] | string[] | optional |
477 | journal | string | optional (journal أو conference) |
478 | conference | string | optional |
479 | doi | string | optional |
480 | link | string (URL) | optional |
481 | pdf | file | optional |
```

```
482 | cover | file (image) | optional |
483
484 **✅ 201 Response:** 9.2 نفس شكل 9.2، `"message": "Research created successfully"`.
485
486 ### 9.4 PUT `/admin/research/update/{id}` 🔒
487 200 ✅ ** `"message": "Research updated successfully"`. ** ❌ 404 **.
488
489 ### 9.5 DELETE `/admin/research/delete/{id}` 🔒
490 ```json
491 { "status": 200, "message": "Research deleted successfully" }
492 ```
493
494 ---
495
496 ## 10. Course
497
498 > للعلاقة Eager Load عمل Controller فقط** لو الـ **Response يظهر في الـ `lectures` الحقل
499 `index` وليس في `show` غالبًا يحصل في - `).
500
501 ### 10.1 GET `/course` 🔒 و GET `/admin/course` 🔒
502 **✅ 200 Response (غير محملة في القائمة - lectures بدون):**
503 ```json
504 {
505   "status": 200,
506   "message": "Courses retrieved successfully",
507   "data": {
508     "courses": [
509       {
510         "id": 1,
511         "title": "Introduction to Wireless Communication Systems",
512         "description": "A comprehensive course covering fundamentals of wireless communication.",
513         "objectives": ["Understand OFDM", "Analyze antenna design"],
514         "cover": "https://your-domain.com/storage/courses/cover1.jpg"
515       }
516     ],
517     "count": 1
518   }
519 ```
520
521 ### 10.2 GET `/course/show/{id}` 🔒 و GET `/admin/course/show/{id}` 🔒
522 **✅ 200 Response (متوقع تكون محملة lectures هنا):**
523 ```json
524 {
525   "status": 200,
```

```
526     "message": "Course retrieved successfully",
527     "data": {
528         "id": 1,
529         "title": "Introduction to Wireless Communication Systems",
530         "description": "...",
531         "objectives": ["Understand OFDM", "Analyze antenna design"],
532         "cover": "https://.../cover1.jpg",
533         "lectures": [
534             {
535                 "id": 1,
536                 "course_id": 1,
537                 "title": "Lecture 1 - Introduction to OFDM",
538                 "pdf": "https://.../lec1.pdf",
539                 "video_url": "https://.../lec1.mp4",
540                 "youtube_url": "https://youtube.com/watch?v=xxxx",
541                 "date": "2025-09-10"
542             }
543         ]
544     }
545 }
546 ```
547 **❌ 404** لو غير موجود.
548
549 ### 10.3 POST `/admin/course/store` 🔒
550 **Body:** `title` (✅), `description` (optional), `objectives[]` (optional), `cover` (file, optional)
551
552 **✅ 201 Response:** 10.2 عادةً لكورس جديد (lectures بدون) نفس شكل، `message`: "Course created successfully".
553
554 ### 10.4 PUT `/admin/course/update/{id}` 🔒
555 200 ✅ **`message`: "Course updated successfully"`. ❌ 404**.
556
557 ### 10.5 DELETE `/admin/course/delete/{id}` 🔒
558 ```json
559 { "status": 200, "message": "Course deleted successfully" }
560 ```
561
562 ---
563
564 ## 11. Lecture
565
566 ### 11.1 GET `/lecture` 🔒 و GET `/admin/lecture` 🔒
567 **✅ 200 Response:**
568 ```json
569 {
```

```
570     "status": 200,
571     "message": "Lectures retrieved successfully",
572     "data": {
573         "lectures": [
574             {
575                 "id": 1,
576                 "course_id": 1,
577                 "title": "Lecture 1 - Introduction to OFDM",
578                 "pdf": "https://your-domain.com/storage/lectures/lec1.pdf",
579                 "video_url": "https://your-domain.com/storage/lectures/lec1.mp4",
580                 "youtube_url": "https://youtube.com/watch?v=xxxx",
581                 "date": "2025-09-10"
582             }
583         ],
584         "count": 1
585     }
586 }
587 ```
588
589 ### 11.2 GET `/lecture/show/{id}` 🔒 و GET `/admin/lecture/show/{id}` 🔒
590 نفس عنصر واحد بدون تغليف، `"message": "Lecture retrieved successfully"`. **❌ 404**.
591
592 ### 11.3 POST `/admin/lecture/store` 🔒
593 **Body:**
594 | Field | Type | Required |
595 |---|---|---|
596 | course_id | integer | ✅ |
597 | title | string | ✅ |
598 | pdf | file | optional |
599 | video_url | string | optional |
600 | youtube_url | string (URL) | optional |
601 | date | date | optional |
602
603 **✅ 201 Response:** 11.2 نفس شكل، `"message": "Lecture created successfully"`.
604
605 ### 11.4 PUT `/admin/lecture/update/{id}` 🔒
606 404 ❌ **200 ✅**. نفس الحقول (اختيارية).
607
608 ### 11.5 DELETE `/admin/lecture/delete/{id}` 🔒
609 ```json
610 { "status": 200, "message": "Lecture deleted successfully" }
611 ```
612
613 ---
614
```

```
615 ## 12. Experience
616
617 > Admin. ولا في Public لا في `show` من نوع Endpoint لا يوجد
618
619 ### 12.1 GET `/experience` 🔒 و GET `/admin/experience` 🔒
620 **✅ 200 Response:**
621 ```json
622 {
623   "status": 200,
624   "message": "Experiences retrieved successfully",
625   "data": {
626     "experiences": [
627       {
628         "id": 1,
629         "position": "Teaching Assistant",
630         "organization": "Cairo University - Faculty of Engineering",
631         "from": "2023-09",
632         "to": "Present",
633         "description": "Assisting in delivering undergraduate communication courses.",
634         "responsibilities": ["Grading", "Lab supervision", "Office hours"]
635       }
636     ],
637     "count": 1
638   }
639 }
640 ```
641
642 ### 12.2 POST `/admin/experience/store` 🔒
643 **Body:** `position` (✅), `organization` (✅), `from`, `to`, `description`, `responsibilities[]` (كل د
644 optional)
645
646 **✅ 201 Response:** 12.1 نفس عنصر من ، `message`: "Experience created successfully"`.
647
648 ### 12.3 PUT `/admin/experience/update/{id}` 🔒
649 404 ❌** . **200 ✅** . (اختيارية) نفس الحقول .
650
651 ### 12.4 DELETE `/admin/experience/delete/{id}` 🔒
652 ```json
653 { "status": 200, "message": "Experience deleted successfully" }
654 ```
655 ---
656
657 ## 13. Position
658
```

```

659 > `PositionResource` هنا **نص عادي** (اسم/كلاس أيقونة) وليس ملف - لأن `icon` ملحوظة: حقل. `show` لا يوجد
660 `mediaUrl()` لا يمرره على`.
661 ### 13.1 GET `/position` 🔓 و GET `/admin/position` 🔒
662 **✅ 200 Response:**
663 ```json
664 {
665   "status": 200,
666   "message": "Positions retrieved successfully",
667   "data": {
668     "positions": [
669       {
670         "id": 1,
671         "title": "Research Assistant",
672         "organization": "Wireless Communications Lab",
673         "description": "Supporting ongoing research in 5G and VLC systems.",
674         "icon": "briefcase"
675       }
676     ],
677     "count": 1
678   }
679 }
680 ```
681
682 ### 13.2 POST `/admin/position/store` 🔒
683 **Body:** `title` (✅), `organization` (✅), `description` (optional), `icon` (string, optional)
684
685 **✅ 201 Response:** نفس عنصر من 13.1، `message`: "Position created successfully".
686
687 ### 13.3 PUT `/admin/position/update/{id}` 🔒
688 404 ❌ **.** 200 ✅ **. (اختيارية).
689
690 ### 13.4 DELETE `/admin/position/delete/{id}` 🔒
691 ```json
692 { "status": 200, "message": "Position deleted successfully" }
693 ```
694
695 ---
696
697 ## 14. Blog
698
699 > `routes/api.php` حسب `/admin/blog` فقط **, مش موجود في مجموعة Public متوفر **في `show` الـ Endpoint ملحوظة
700
701 ### 14.1 GET `/blog` 🔓 و GET `/admin/blog` 🔒

```

```
702 **✅ 200 Response:**
703 ```json
704 {
705   "status": 200,
706   "message": "Blogs retrieved successfully",
707   "data": {
708     "blogs": [
709       {
710         "id": 1,
711         "title": "Understanding 5G Network Architecture",
712         "slug": "understanding-5g-network-architecture",
713         "excerpt": "A beginner-friendly overview of 5G architecture.",
714         "content": "<p>Full article content...</p>",
715         "cover": "https://your-domain.com/storage/blog/cover1.jpg",
716         "date": "2026-05-01"
717       }
718     ],
719     "count": 1
720   }
721 }
722 ```
723
724 ### 14.2 GET `/blog/show/{id}` 🔒
725 نفس عنصر واحد بدون تغليف، `message": "Blog retrieved successfully"`. **❌ 404**.
726
727 ### 14.3 POST `/admin/blog/store` 🔒
728 **Body:** `title` (✅), `slug` (optional – العنوان – أو بيتوئد تلقائياً من العنوان), `excerpt` (optional), `content` (✅), `cover` (file, optional), `date` (optional)
729
730 **✅ 201 Response:** 14.2 نفس شكل، `message": "Blog created successfully"`.
731
732 ### 14.4 PUT `/admin/blog/update/{id}` 🔒
733 404 ❌ **200 ✅**. نفس الحقول (اختيارية).
734
735 ### 14.5 DELETE `/admin/blog/delete/{id}` 🔒
736 ```json
737 { "status": 200, "message": "Blog deleted successfully" }
738 ```
739
740 ---
741
742 ## 15. Education
743
744 > `show` لا يوجد.
```

```
746 ### 15.1 GET `/education` 🔒 و GET `/admin/education` 🔒
747 **✅ 200 Response:**
748 ```json
749 {
750   "status": 200,
751   "message": "Education retrieved successfully",
752   "data": {
753     "education": [
754       {
755         "id": 1,
756         "degree": "B.Sc. in Communications and Electronics Engineering",
757         "school": "Cairo University",
758         "year": "2026",
759         "focus": "Wireless Communication Systems"
760       }
761     ],
762     "count": 1
763   }
764 }
765 ```
766
767 ### 15.2 POST `/admin/education/store` 🔒
768 **Body:** `degree` (✅), `school` (✅), `year` (optional), `focus` (optional)
769
770 **✅ 201 Response:** 15.1 نفس عنصر من ، `message`: "Education created successfully"`.
771
772 ### 15.3 PUT `/admin/education/update/{id}` 🔒
773 404 ❌** .**200 ✅** . (اختيارية).
774
775 ### 15.4 DELETE `/admin/education/delete/{id}` 🔒
776 ```json
777 { "status": 200, "message": "Education deleted successfully" }
778 ```
779
780 ---
781
782 ## 16. Contact Us
783
784 ### 16.1 POST `/contact-us/store` 🔒
785 **Body:**
786 | Field | Type | Required |
787 |---|---|---|
788 | name | string | ✅ |
789 | email | string (email) | ✅ |
790 | subject | string | optional |
```

```
791 | message | string | ✓ |
792
793 **✓ 201 Response:**
794 ```json
795 {
796   "status": 201,
797   "message": "Message sent successfully",
798   "data": {
799     "id": 1,
800     "name": "Visitor Name",
801     "email": "visitor@example.com",
802     "subject": "Collaboration Opportunity",
803     "message": "Hello, I would like to discuss a potential collaboration.",
804     "read": false,
805     "created_at": "2026-06-15 14:32:10"
806   }
807 }
808 ```
809
810 ### 16.2 GET `/admin/contact-us` 🔒
811 **✓ 200 Response:**
812 ```json
813 {
814   "status": 200,
815   "message": "Messages retrieved successfully",
816   "data": {
817     "messages": [
818       {
819         "id": 1,
820         "name": "Visitor Name",
821         "email": "visitor@example.com",
822         "subject": "Collaboration Opportunity",
823         "message": "Hello, I would like to discuss a potential collaboration.",
824         "read": false,
825         "created_at": "2026-06-15 14:32:10"
826       }
827     ],
828     "count": 1
829   }
830 }
831 ```
832
833 ### 16.3 PATCH `/admin/contact-us/read/{id}` 🔒
834 بتعلم الرسالة كـ "مقروءة".
835
```

836 ****✅ 200 Response (تقديري):****

837 ```json

```
838 {
839   "status": 200,
840   "message": "Message marked as read",
841   "data": {
842     "id": 1,
843     "name": "Visitor Name",
844     "email": "visitor@example.com",
845     "subject": "Collaboration Opportunity",
846     "message": "Hello, I would like to discuss a potential collaboration.",
847     "read": true,
848     "created_at": "2026-06-15 14:32:10"
849   }
850 }
851 ```
```

852 ****❌ 404**** لو غير موجود.

853

854 **### 16.4 DELETE `/admin/contact-us/delete/{id}` 🔒**

855 ```json

```
856 { "status": 200, "message": "Message deleted successfully" }
857 ```
```

858 ****❌ 404**** لو غير موجود.

859

860 ---

861

862 **## 17. ملاحظات ختامية**

863

864 - لكنها بُنيت، **Controller** كل القيم اللي اكتب جنبها **** (تقديري) **** معناها إنها مش مأخوذة حرفيًا من كود الـ **Resources** ومنطق الـ **helper** `apiResponse()` على نمط الـ الخاص بيه وأنا أصحح **Controller** عندك بيرجع شكل مختلف عن المذكور هنا، ابعثلي كود الـ **Endpoint** لو في -

865 - ه فورًا في نفس الملف.

866 - ``status`/`message`` واحد، وتستخدم `source of truth` كـ ``data`` يفضل تتعامل مع **React frontend** بما إنك شغال بـ -

867 - والتحقق من نجاح/فشل الطلب (**Toasts**) بس للتنبيهات ``message``.
